TOTAL:			105.80	31	50	44

(Note: Some positions are reflected in more than one column to most accurately reflect the current status of that position. For example: A position may currently have an AIC performing the role while there is a current recruitment to fill the position.)

*(***One employee has been appointed to perform the work of both of these positions. The vacant .5 FTE for each role will be eliminated in FY14, and funding will be repurposed for other organizational priorities.)*
